

## **CLAIMS**

## What is claimed is:

1	1.	A method for managing a sporting goods supply chain utilizing a network,
2		comprising:
3	a)	receiving data from a plurality of sporting goods outlets of a sporting goods
4		supply chain utilizing a network, the data relating to the sale of sporting goods by
5		the sporting goods outlets;
6	b)	generating an electronic order form based on the data for ordering sporting goods
7		from a sporting goods distributor of the sporting goods supply chain;
8	c)	transmitting the data to the sporting goods distributor of the sporting goods supply
9		chain utilizing the network;
10	d)	transmitting the data to a sporting goods supplier of the sporting goods supply
11		chain utilizing the network; and
12	e)	forecasting activity in the sporting goods supply chain utilizing the data.
1	2.	The method of claim 1, wherein the data is parsed to match each of a plurality of
2		sporting goods distributors and sporting goods suppliers.
1	3.	The method of claim 2, wherein the data is made accessible to the sporting goods
2		outlets, the sporting goods distributor, the sporting goods supplier via a network-
3		based interface.
1	4.	The method of claim 3, wherein the data is accessible to the sporting goods
2		distributor and the sporting goods supplier only after verification of an identity
3		thereof.

1 5. The method of claim 1, wherein the network includes the Internet.

		<del>-</del>
1	6.	The method of claim 1, wherein the sporting goods outlets, the sporting goods
2		distributor, and the sporting goods supplier each forecast utilizing the data.

- 1 7. A system for managing a sporting goods supply chain utilizing a network, comprising:
- a) logic for receiving data from a plurality of sporting goods outlets of a sporting goods supply chain utilizing a network, the data relating to the sale of sporting goods by the sporting goods outlets;
- b) logic for generating an electronic order form based on the data for ordering
   sporting goods from a sporting goods distributor of the sporting goods supply
   chain;
- 9 c) logic for transmitting the data to the sporting goods distributor of the sporting goods supply chain utilizing the network;
- 11 d) logic for transmitting the data to a sporting goods supplier of the sporting goods 12 supply chain utilizing the network; and
- e) logic for forecasting activity in the sporting goods supply chain utilizing the data.
- 1 8. The system of claim 7, wherein the data is parsed to match each of a plurality of sporting goods distributors and sporting goods suppliers.
- 1 9. The system of claim 8, wherein the data is made accessible to the sporting goods outlets, the sporting goods distributor, the sporting goods supplier via a network-based interface.
- 1 10. The system of claim 9, wherein the data is accessible to the sporting goods
  2 distributor and the sporting goods supplier only after verification of an identity
  3 thereof.
- 1 11. The system of claim 7, wherein the network includes the Internet.

ļ.

- 1 12. The system of claim 7, wherein the sporting goods outlets, the sporting goods distributor, and the sporting goods supplier each forecast utilizing the data.
- 1 13. A computer program product for managing a sporting goods supply chain
   utilizing a network, comprising:
- a) computer code for receiving data from a plurality of sporting goods outlets of a
   sporting goods supply chain utilizing a network, the data relating to the sale of
   sporting goods by the sporting goods outlets;
- b) computer code for generating an electronic order form based on the data for
   ordering sporting goods from a sporting goods distributor of the sporting goods
   supply chain;
- 9 c) computer code for transmitting the data to the sporting goods distributor of the sporting goods supply chain utilizing the network;
- 11 d) computer code for transmitting the data to a sporting goods supplier of the 12 sporting goods supply chain utilizing the network; and
- e) computer code for forecasting activity in the sporting goods supply chain utilizing the data.
- 1 14. The computer program product of claim 13, wherein the data is parsed to match each of a plurality of sporting goods distributors and sporting goods suppliers.
- 1 15. The computer program product of claim 14, wherein the data is made accessible 2 to the sporting goods outlets, the sporting goods distributor, the sporting goods supplier via a network-based interface.
- 1 16. The computer program product of claim 15, wherein the data is accessible to the sporting goods distributor and the sporting goods supplier only after verification of an identity thereof.
- 1 17. The computer program product of claim 13, wherein the network includes the 2 Internet.

- 1 18. The computer program product of claim 13, wherein the sporting goods outlets,
- 2 the sporting goods distributor, and the sporting goods supplier each forecast
- 3 utilizing the data.
